Delivery of gensets to Malaysia is possible as well. In case you are interested, you can request a quote simply by filling out the form.

What is container house Malaysia?

Container house Malaysia is very well accepted especially for container retreat in outskirts in non-city area. Container house supplier in Malaysia normally carry out fabrication of recycled or second hand container units, do the cutting for windows and doors, install the fixtures and fittings before sending to construction site.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

Can you put a generator in a container?

Generators can be put into containers. There are a number of benefits to doing this including: Easier transportation and installation making them ideal for temporary or remote applications. They are more secure as typically they are lockable which prevents unauthorised access. Do I need to service my power system?

Put simply, yes.
