

# Manila Lithium-ion Energy Storage Power Station

## Overview

---

Why should you install a battery energy storage system in the Philippines?

BESS acts as a buffer between the grid and your facility, ensuring a consistent and reliable power supply. BESS can help keep essential appliances running in areas where power outages are common. Curious to find out how much you can save installing battery energy storage systems in the Philippines?

What is Masinloc battery energy storage?

The Masinloc Battery Energy Storage System (BESS) is the first battery energy storage facility in the Philippines and one of the first in Southeast Asia. We started our venture into battery energy storage technology in 2018 when we acquired this 10 MW system from AES Philippines.

Where can I find smgp battery energy storage system?

The SMGP Battery Energy Storage System (BESS) site in Limay, Bataan, Philippines. (Photo from SMGP) Support CleanTechnica's work through a Substack subscription or on Stripe.

Who provides fractionalized battery energy storage?

We are partnered with NexVolt, the first in the Philippines to provide fractionalized Battery Energy Storage. NexVolt, through their cutting edge technology, ensures even Small Medium Enterprises (SMEs) can adopt inexpensive battery energy storage systems and kickstart their journey towards energy independence.
