

EQACC SOLAR

Manila Photovoltaic Energy Storage Container DC

Overview

Will Terra become the largest integrated photovoltaic power station in Southeast Asia?

This project marks a significant milestone as Terra is poised to become the largest integrated photovoltaic and energy storage power station in Southeast Asia.

What is a GW power plant in the Philippines?

Strategically located in the Philippines, the comprehensive development is designed to harness substantial renewable energy resources, boasting a total planned capacity of 3.5 gigawatts (GW) of photovoltaic (PV) power and 4.5 gigawatt-hours (GWh) of energy storage.

What is Phase 1 of PV & energy storage?

The Phase I project, which was recently contracted, encompasses 1.4 GW of PV capacity and 3.3 GWh of energy storage capacity. Construction activities are scheduled to commence in November 2024, with the facility expected to enter commercial operation by 2026.
