

EQACC SOLAR

MastEK solar container outdoor power

Overview

Is Marstek a new manufacturer in the solar market?

Marstek, a new manufacturer, is entering the PV market. Initially focused on power banks, Marstek is now showcasing a range of products for the booming DIY solar market, including a user-friendly, AC-coupled battery solution for balconies.

What is the price of Marstek's balcony inverters?

The balcony inverters, with 2.24 kWh of battery storage capacity, are available on the company's website for €1,000 (\$1,070). In addition to using dynamic electricity tariffs, the Venus batteries can also be used for emergency power supply. There is currently no price information for the plug-in home storage systems on the website.

How much power does marstek have?

On the DC side, Marstek's solar panels can connect up to 2,000 W of module power. On the AC side, the maximum output is 800 W. First, Marstek offers the Jupiter platform, a fully integrated storage system for balconies, in 2.56 kWh and 5.12 kWh variants.

Does Marstek offer a battery storage system?

Marstek offers a battery storage system called Venus. It comes in a 5.12 kWh version and can be easily installed by plugging it into a household socket. Additionally, Marstek guarantees 80% capacity retention for 6,000 cycles.
