# **Mauritania Solar Container 25kW Generator**

## Overview

---

How will Mauritania's new solar power project help agri-food industry?

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the installation of hybrid mini photovoltaic power plants and the construction of connecting lines. The project will also support value-creating activities, especially in the food cold chain and agri-food processing.

How much money does Mauritania receive from the AfDB & GCF?

Her fiction and non-fiction narratives captivate and resonate with a diverse audience, showcasing her versatility and depth as a writer. Mauritania receives \$289.5 million from the AfDB and the GCF to develop solar power generation, transnational electricity interconnection and rural electrification.

How does the piemm project work in Mauritania & Mali?

The PIEMM will boost solar energy production and provide access to electricity for more than two million people in Mauritania and Mali, while also enhancing regional integration and trade. The project is financed by a \$272 million loan from the African Development Fund, the concessional window of the AfDB, and a \$1.5 million grant from the GCF.
