Mbabane Folding Container 150ft

Overview

What is a new shipping container?

A “new” shipping container is one that has made the journey from China to the UK only once. New shipping containers are in high demand for either shipping or storage purposes. The fact that they have only been used once means that they are still in very good condition and can be used for a variety of purposes.

Can I use a one trip container for storage or shipping?

Any one trip containers we offer will not have been previously used for storage or shipping without us making this expressly clear. All of our basic used shipping containers are sourced in directly from shipping lines and leasing companies.

What is a 10 ft container?

This container type is designed to cater for the storage of different goods in the same container by having doors at both ends. A 10ft container is perfect the size because it's a versatile, sturdy, and cost-effective solution for a small office set up. Perfect for onsite security access or small home offices.

What is an open top container?

Open top containers have an open top covered by a tarpaulin instead of a solid roof. Enables oversized cargo such as timber and scrap metal to be loaded from the top. Open top containers normally also have end doors, like closed containers, to give flexibility for loading and unloading.
