# **Metal clad switchgear factory in Moldova**

## Overview

---

What is metal-clad switchgear?

A Complete Guide Metal-clad switchgear is an essential part of modern power systems. It plays a key role in ensuring safe, reliable, and efficient distribution of electricity across industrial, commercial, and utility environments. But what exactly is metal-clad switchgear, and why is it widely used in medium and high-voltage applications?

.

Who makes metal clad & metal enclosed switchgear?

Powercon Corporation, located in Severn, Maryland, manufactures quality Metal-Clad and Metal-Enclosed Switchgear as well as a variety of other products serving the needs of the electrical industry.

What are the advantages of metal clad switchgear?

Metal-clad switchgear offers several distinct advantages that make it the go-to choice for many installations: : Metal enclosures and compartmentalized design reduce the risk of arc flash and electrical faults spreading. : Components like circuit breakers can be withdrawn without dismantling the entire system.

Does metal-clad switchgear need a breaker cell?

Personnel working on metal-clad switchgear still have to use care when working in a breaker cell. This is due to the presence of control power that can come from multiple sources, as well as any main bus connected PT/VT's. Below are images showing the major parts of metal-clad equipment.

## Metal clad switchgear factory in Moldova
