# Mexican solar panel industry

## Overview

---

Mexico is poised to become a formidable player in solar panel manufacturing and exports by 2025, propelled by a new regulation requiring all panels sold in the country to be locally produced. What is the market share of solar energy in Mexico?

By 2024, photovoltaic systems held 99.86% of the Mexican solar energy market share, while solar thermal systems for industrial heat are projected to rise at a 37.97% CAGR through 2030.

What is Mexico's solar industry like?

Mexico's solar industry offers tremendous opportunities for both international and domestic companies. While technology giants like First Solar and Maxeon lead in module production, specialized solution providers like Grace Solar have carved out significant market share with innovative tracking systems and mounting solutions.

How many solar panel installers are there in Mexico?

Mexican solar panel installers – showing companies in Mexico that undertake solar panel installation, including rooftop and standalone solar systems. 409 installers based in Mexico are listed below.

Why do solar panels cost so much in Mexico?

Laws surrounding solar power in Mexico and global influences have actually caused the cost of solar panels in Mexico to be lowered substantially. In fact, Mexico is recognized for having record solar prices that have fallen below the average cost of energy from gas and coal.
