

EQACC SOLAR

Mexico Monterrey cylindrical lithium iron phosphate battery

Overview

What is a cylindrical lithium ion battery?

Cylindrical cells one of the most widely used lithium ion battery shapes due to ease to use and good mechanical stability. The tubular cylindrical shape can withstand high internal pressures without collapsing. Melasta produces multiple sizes and capacities according to the customer requirement.

What is melasta lithium iron phosphate (LiFePO₄)?

Melasta Lithium Iron phosphate (LiFePO₄) cells are one of the best qualities cells available in the market with these technological features 1. High Capacity of single cells upto 6500 mAh. 2. Multiple Shapes with 14500, 18650, 26650, and 32600. 3. Wide Discharge rate range from 1C to 15C. 4. Wide range of operating temperature from -20°C to 60°C. 5.

Who makes LiFePO₄ batteries in China?

Melasta is one of the main producer and supplier for LiFePO₄ batteries in China. Our batteries have the features due to our superior technologies and state of the art manufacturing facilities and investment on research and development. 1. Very long cycle life.

What are melasta batteries used for?

Melasta produces multiple sizes and capacities according to the customer requirement. These cells are mostly used in Electrical vehicles such as golf cart and in power tools. Melasta is one of the main producer and supplier for LiFePO₄ batteries in China.

Mexico Monterrey cylindrical lithium iron phosphate battery

LiFe-Shenzhen Melasta Battery Co., Ltd

These cells have high density and light weight which enable this technology to use in multiple devices. Lithium Iron Phosphate Cylindrical ...
