Microinverter price trend

Overview

How big is the microinverter market?

The three phase segment is anticipated to cross USD 800 million by 2034. The microinverter market size crossed USD 2.9 billion in 2024 and is estimated to grow at a CAGR of 10.6% from 2025 to 2034, driven by rising demand for plug-and-play solar systems.

How big is the solar microinverter market in 2025?

The solar microinverter market is valued at USD 5 billion in 2025 and is projected to reach USD 26.77 billion by 2035, expanding at a CAGR of 18.3%. The string inverter segment is anticipated to grow fastest among product types, with a CAGR of 5.7%.

Why is the microinverter market growing?

The microinverter market is experiencing robust growth, driven by increasing demand for residential and commercial solar installations globally.

Is the solar microinverter market poised for transformative growth?

Overall, the solar microinverter market is poised for transformative growth, driven by evolving energy consumption patterns, improved return on investment for solar customers, and the expanding role of distributed renewable energy in global energy systems.
