Middle East Smart Energy Storage Solutions

Overview

Is large-scale energy storage a viable option in the Middle East?

Until recently, large-scale energy storage was barely a consideration in the Middle East, where fossil fuels have long dominated power generation. With renewable energy projects expanding across the region, energy storage has started gaining traction.

Is energy storage gaining traction in the Middle East?

With renewable energy projects expanding across the region, energy storage has started gaining traction. Unlike Europe, North America, and Asia, where renewable energy and storage technologies are well-established, the Middle East remains in the early stages of development.

Who is Saeed Mohammed Al-Tayer?

Saeed Mohammed Al-Tayer, vice chairman of the Dubai Supreme Council of Energy, will inaugurate the show and lead the high-level plenary of the Middle East Energy Leadership Summit. “We’ve built this edition of Middle East Energy to reflect the dynamism, ambition, and transformative potential of the region’s energy ecosystem,” stated Mark Ring.

How big is the battery market in the Middle East and Africa?

Market forecasts suggest that the Middle East and Africa battery market is projected to grow to \$9.98 billion by 2029, driven by policy support, increasing electrification, and a rise in renewable energy investments.
