Middle East battery swap cabinet platform 3 44MWh

Overview

What is Raja Cabinet energy storage system series?

RAJA cabinet energy storage system series is mainly composed of the energy storage battery, battery management system (BMS), monitoring system, fire protection system, temperature control system, and container auxiliary system. The product is applicable to power plants, power grid, and user side, and can be customized to meet actual requirements.

How many battery swap cabinets are there?

With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium batteries, providing convenient services for drivers in more than 35 countries around the world, helping clients build a profitable and scalable battery swap business.

What is hithium doing in the MENA region?

Within the MENA region, in May, Hithium launched a cooperation with Turkish engineering company Kontek Enerji's battery storage subsidiary Maxxen, through which the pair seek to promote energy storage systems and establish a production facility in the country.

What is a tycorun battery swap cabinet?

The swap cabinet uses intelligent charging strategies to optimize battery performance, with easy maintenance, real-time fault alarms. TYCORUN batteries are built for business swap applications, using top-tier cells that withstand high-frequency daily cycling, with shock resistance, high safety, and integrated smart 4G GPS.
