Mobile base station site delisting time

Overview

How to shorten the processing time of a base station application?

To shorten the overall processing time of base station application, OFTA and Lands D have adopted parallel processing of applications in cases where a temporary waiver is required. The operator should submit applications to OFTA and Lands D (if a temporary waiver is required) in parallel.

What is a mobile base station?

A mobile base station, also called a base transceiver station (BTS), is a fixed radio transceiver in any mobile communication network or wide area network (WAN). The base station connects mobile devices to the network and routes them to other terminals in the network or to the core network of a mobile operator. Read more [Explore Mobile base](#).

What is a radio base station reconfiguration procedure?

This procedure outlines the application procedure to be followed by the mobile services operators (hereinafter called the “operators”) for the reconfiguration of existing radio base stations NOT involving changes in the structural design and planning perspective of the parent building, and the change of land use.

Why did two base stations in Lam Tsuen have to be removed?

It was reported that two base stations in Lam Tsuen, Tai Po had to be removed at the end of last year due to objections raised by residents in the neighbourhood, resulting in the mobile communications services in the vicinity being paralysed.
