Mobile energy storage power supply in Gothenburg Sweden

Overview

What is Sweden's largest battery storage system?

Sweden's largest battery storage system was commissioned in Gothenburg. Stena Recycling's subsidiary Batteryloop installed its BLESS III system, storing 2.8 megawatts in reused Mercedes EV batteries and already helping power a whole new neighbourhood.

How many large-scale energy storage systems are there in Sweden?

The initiative, led by Ingrid Capacity in collaboration with BW ESS, consists of 14 large-scale energy storage systems with a total capacity of 211 MW/211 MWh. This milestone investment represents a significant step toward Sweden's goal of achieving a carbon-neutral energy system.

What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region.

How is Gothenburg shaping the new battery industry?

In Gothenburg we are shaping the new battery industry. In the coming years Gothenburg and West Sweden will have in place two battery gigafactories, with major investments being made by public and private actors, including Volvo Cars and the Volvo Group. The region is set to become an important hub for both battery development and production.
