Mobile high power inverter

Overview

What is a mobile inverter?

ABB's Mobile Inverter offer compact, liquid-cooled drives for marine applications, combining multiple functions in one rugged unit. With IP67 protection, efficient water cooling, and optimal grid control for hotel loads, these inverters ensure reliable performance, easy integration, and sustainable operations in demanding onboard environments.

What is a mobile inverter (GVI)?

This new generation of mobile inverters offers advanced motor control solutions for both traction and work function applications across a wide range of on and off-road vehicles. The GVI is designed to meet the evolving needs of OEMs in industries such as construction, mining, material handling, and agriculture.

What makes ABB a good inverter?

ABB delivers scalable, robust inverter technology designed to boost efficiency, reliability, and performance across a wide range of off-road machines and marine applications—tailored to meet your operational needs. Discover the power of compact, liquid-cooled mobile inverters with ABB's HES drive series.

What is ABB mobile inverter?

ABB's Mobile Inverter delivers robust, efficient, and high-performance solutions for electric buses, ensuring smooth propulsion and reliable operation across diverse driving conditions.
