

## EQACC SOLAR

# Mobile power box power supply for construction site

## Overview

---

What type of power do you need for a construction site?

From generators and air compressors to distribution equipment, you have various options to power each jobsite. The type of equipment you use, your construction schedule and the worksite location all play a role in choosing the right type of power supply. [What Is Temporary Power for Construction Sites and Why Do You Need It?](#)

.

How do I choose a temporary power supply for my construction site?

Cables and cable ramps are essential accessories for power generation equipment. Cables help you extend power throughout your jobsite, and cable ramps protect the cables from potential damage in high-traffic areas. Consider the following factors when choosing a temporary power supply for your construction site.

What are permanent power solutions?

Our permanent power solutions are built to last. From Modular Switch Boards to Quick Connect Docking Panels, we provide reliable power exactly where and when you need it, ensuring your construction projects are powered without interruption. Adjust quickly as your site evolves with our portable power panels and distribution boxes.

What is temporary power for construction sites?

[What Is Temporary Power for Construction Sites and Why Do You Need It?](#)

Temporary construction power provides a short-term power supply for equipment, tools, lighting and on-site offices. It's vital for performing construction work in areas that are not connected to the electrical grid.
