

EQACC SOLAR

Mobile three-level charging power box

12.8V 200Ah

12.8V200Ah

Lithium Battery for Energy Storage

LiFePO4

Environment-Friendly/Long Life/Deep Cycle

Discharge: 100A (continuous using), 220 A (13 Seconds)

Constant Voltage Charge Voltage Regulation

Code Use: 14.2V

Rating Use: 14.2 V

Initial Current: Less than 50A

WARNING

- Risk of fire, explosion, or burns.
- Do not short the battery terminal.
- Do not disassemble, heat above 55°C, or incinerate.

Overview

What is a Level 3 electric vehicle charger?

Whether you own a compact car, an SUV, or a sleek sedan, our charger provides the universal solution to keep you charged and on the move. **FAST & EASY TOP-UP:** This portable level 3 electric vehicle charger offers three-phase 480/277V AC 32A charging up to 22kW, letting you top off your electric vehicle up to 7x faster than standard plug-in charging.

What is a Level 3 DC fast charging station?

Designed to reduce both time and complexity to install and service. Smaller footprint allows customers to more efficiently use their valuable space, creating a more profitable use of space for parking. Level 3 split system DC fast charging station from BTC Power, an industry-leading ev charger manufacturer.

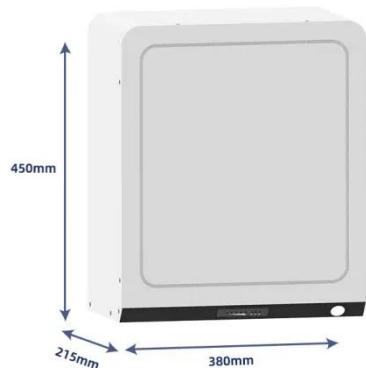

Does a mobile EV charging station work with a J3068 socket?

Our mobile EV charging station is designed to work seamlessly with all SAE J3068 socketed electric vehicles, offering rapid and stable charging for a diverse range of EV models. Whether you own a compact car, an SUV, or a sleek sedan, our charger provides the universal solution to keep you charged and on the move.

Are EV chargers waterproof?

WEATHERPROOF DURABILITY: This EV charger is expertly made of sturdy thermal plastic materials and premium copper to provide reliable, long-lasting service; its IP55 waterproof performance plus its ability to work at temperatures from as low as -25°C to as high as 50°C ensure worry-free indoor and outdoor use.
