| 5 OPV1 side circuit breaker | 10 MPPT                     |

## Overview

---

What is a 1 MWh energy storage system?

1 MWh and construction scale of 1 MW/1 MWh. It includes a 1.04 MWh lithium iron phosphate battery pack carried by a 20-foot prefabricated container with dimensions of 6058 mm x 2438 mm x 2896 mm. Each energy storage unit has a capacity of 1044.48 kWh, and the actual capacity configuration of the system is 1000 kW/1044.48 kWh.

What is a 1MWh Battery Energy Storage System?

A 1MWh Battery Energy Storage System, such as PKENERGY's 20ft container solution, stores energy equivalent to 1 megawatt-hour. It includes 5 clusters connected to a 500kVA power conversion system (PCS) for output at 340-440VAC. The system also includes a 500kW three-phase inverter with a 98.3% conversion efficiency and a 300kW inverter for DC to AC conversion.

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO<sub>4</sub>) combined with an intelligent 3-level battery management system (BMS);

## Nassau Hotel Uses 1MW Mobile Energy Storage Container

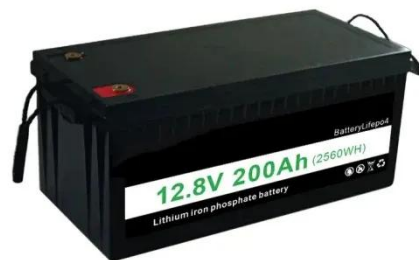

### 1MW/2MWh Energy Storage Container ...

We use standard chassis and containers that can flexibly match system energy according to customer needs. Our products cover energy ...
