

EQACC SOLAR

Netherlands energy storage vehicle equipment manufacturer

Overview

Who is energy storage NL?

Energy Storage NL is the subject matter expert on energy storage and conversion technology. We promote awareness and knowledge about the current and future role for energy storage and conversion in the energy system. Energy Storage NL represents the broad energy storage sector towards governments and external stakeholders.

Are all energy storage facilities in the Netherlands electro-chemical?

All energy storage facilities in the Netherlands are electro-chemical, with the exception of the contracted 1 MW Hydrostar underwater compressed air energy storage project in Aruba (Caribbean). Hydrostar is a Canadian company specializing in underwater compressed air energy storage technologies.

Why should the Netherlands accelerate the energy transition?

The Netherlands must accelerate so as not to miss opportunities. Energy storage is the missing link in the energy transition. Without large-scale deployment of batteries, heat buffers and hydrogen storage, the Netherlands risks falling behind in Europe and becoming more dependent on foreign players.

What is a battery energy storage system?

Originally developed for Formula 1 racing, today the system is widely used to save fuel and emissions on dynamic industrial equipment such as pumps and tower cranes. Time Shift B.V. is a manufacturer of innovative battery energy storage systems (BESS), reusing “second life” batteries which have seen previous service in electric busses and trucks.
