New Delhi is the first city in the country to build 5G base stations

Overview

When will BSNL launch 5G in Delhi?

State-owned BSNL is expected to meet the latest deadline of launching 5G services in Delhi and other select cities by the end of September, officials said on Friday. The telecom operator has completed testing 5G technology at most state capitals, at the new 4G sites installed as part of the ongoing 1 lakh 4G sites deployment, they said.

How many 5G base stations are there in India?

India had 469,000 5G base stations at the end of February, according to the latest available figures from the country's Ministry of Communications. The ministry said the number of active 5G subscribers in the country surpassed 250 million in the period - in less than two and a half years since 5G was commercially launched.

Will Bharat Sanchar Nigam launch 5G services in Delhi?

State-owned telecom operator Bharat Sanchar Nigam Limited (BSNL) is expected to launch 5G services in Delhi and other select cities by the end of September, senior officials said on Friday, according to a Business Standard report.

Where are 5G sites being activated in India?

Most state capitals, including Jaipur, Lucknow, Chandigarh, Bhopal, Kolkata, Patna, Hyderabad, and Chennai, have seen 5G sites being activated, BSNL officials said. Most of these are newly installed 4G sites under the first phase of the 1 lakh sites deployment, they added.
