Overview

Who are the top 20 global photovoltaic module manufacturers?

During the conference, PVBL announced its annual ranking of the top 20 global photovoltaic module manufacturers. In 2024, the global solar module market continued to see the strongest players thrive, with the top four enterprises — JinkoSolar, LONGi, Trina Solar and JA Solar — collectively shipping over 320GW and dominating the industry.

How many new solar panel manufacturing companies are there?

Within the solar panel manufacturing industry, which encompasses 17K+ companies, new solar panel manufacturing companies are marking significant advancements. Out of 1.3K+ new players, 10 trailblazers are making waves with innovations in building-integrated photovoltaics, floating solar panels, perovskite solar cell technologies, and more.

How do new solar panel manufacturing companies use solar energy?

New solar panel manufacturing companies utilize solar energy through the development of technologies such as building-integrated photovoltaics (BIPV). It integrates solar power into building materials. Likewise, the exploration of floating solar panels maximizes unused water bodies for energy production.

Who makes high-efficiency solar panels?

SunPower: Specializing in high-efficiency solar panels, SunPower uses advanced IBC cell technology. Their products are widely used in large-scale commercial projects globally. China's dominance in the solar panel industry is evident through the success of these top manufacturers.
