New small solar power station generator

Overview

Can a solar power station be used as a generator?

However, using one effectively is a little more complicated than many people realize. Technically, these units are electric power stations—giant battery packs, with the ports you need to plug in solar panels for charging. They can't actually harness solar power—and thus, act as a generator—unless you have both.

What is the best small solar generator?

Each small solar generator listed has different features that can fit specific needs. The EcoFlow River 600 is the best small solar generator due to its high input/output power. It has robust AC ports (600W continuous, 1,200W surge) and takes 1.6 hrs (wall charger) and 1.6-3 hrs (solar) to fully recharge.
