

EQACC SOLAR

Nordic solar energy storage device

Overview

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

What is Nordisk Solar?

Nordisk Solar is a Danish lighting manufacturer founded in 1919 by Jacob L. Jørgensen and Herluf Sørensen. It is well known today on the vintage markets for its mid-century modern pendants and layered lighting designs. Nordisk Solar Compagni was based in several industries before it concentrated on lighting fixture production.

What is a battery energy storage system?

Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available. By storing excess energy, BESS makes it possible to use solar power throughout the day and helps optimise grid infrastructure.
