# **North America Power Storage Batteries**

## Overview

---

Which segment dominates the North American battery storage system market?

The utility segment dominates the North American battery storage system market, commanding approximately 82% of the total market share in 2024, while also exhibiting the strongest growth trajectory with a projected growth rate of around 9% from 2024 to 2029.

Why are companies investing in battery energy storage technology?

Companies are heavily investing in research and development to enhance battery energy storage system technology capabilities, focusing on improved energy density, longer lifecycles, and enhanced safety features.

How many battery energy storage systems are being built in Texas?

October 2024: RWE began constructing three battery energy storage systems (BESS) in Texas, increasing their total projects under construction to 931 MW across California, Texas, and Arizona. The Crowned Heron 1, Crowned Heron 2, and Cartwheel 1 projects in Texas will collectively provide 450 MW of power capacity and 900 MWh of storage capacity.

How much battery storage is available in 2024?

The United States Energy Information Administration reports that approximately 8.8 GW of grid-scale battery storage was operational as of late 2024, with plans to add another 20.8 GW of battery storage capacity in the coming years.
