

EQACC SOLAR

Off-solar container grid inverter for wind power in Costa Rica

Overview

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.

What is a grid-tie Solar System?

Grid-tie systems provide you with a way to reduce CO2 emissions, produce energy for the community and reduce or eliminate your utility bills. A stand-alone solar system is a self-contained and autonomous photovoltaic system ideal for remote areas where the electricity grid doesn't reach.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.
