

EQACC SOLAR

Off-solar container grid inverter in Auckland New Zealand

Overview

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Who is off grid solar?

Off Grid Solar is a company that has been established by solar professionals who have been working building and installing Off Grid Solar Energy Systems in New Zealand for more than a decade. We specialise in battery supported solar energy systems both grid connected (ESS) and Stand Alone Off Grid Solar Energy Plants.

Should you go off-grid in New Zealand with solar power?

Going off-grid in New Zealand with solar power represents both an exciting opportunity for energy independence, a cheaper operational cost of living, and a material contribution to sustainable energy generation. This comprehensive guide will help you understand how off-grid solar works — and what it takes to get it right.

What does an off-grid solar package include?

Our off-grid solar packages include everything you need to go off the grid in New Zealand: solar panels, batteries, charge controllers, inverters, cables, and DIY-friendly manuals backed by exceptional customer support. Each of our off-grid solar system includes everything you'll need to go off the grid - and full install instructions.
