Ottawa Solar Air Conditioning

Overview

Who is Ottawa solar power?

Since 1996, Ottawa Solar Power has been a leader in renewable energy for the National Capital Region, with over 1,000 installations spanning residential homes, businesses, and off-grid projects. As Eastern Ontario and Western Quebec's most experienced solar provider, we deliver reliable, tailored, and sustainable energy solutions for every need.

What is a solar air conditioner?

Solar air conditioners are solar-powered air conditioners designed to efficiently and effectively provide cooling to a room. Solar air conditioners use solar panels to power the air conditioner, and solar hotspot energy gives much power to the air conditioner's condenser and refrigerant.

Why should you choose a custom solar installation for your Ottawa home?

Our customized residential solar installations are designed for Ottawa homes to reduce hydro costs, increase property value, and help you make a lasting environmental impact. Lower Bills. Higher Home Value. Cleaner Energy. Live Anywhere. Power Everything. Go Off-Grid with Confidence.

How much does it cost to install a solar-powered air conditioner?

Installation costs of solar-powered air conditioners can be a bit varied. The exact amount depends on the number of air conditioners, the number of solar panels required, and a few other variables. Solar-powered air conditioners can cost \$2000 before installation while around \$5000 including installation.
