

EQACC SOLAR

Ottawa Solar Electric System

Overview

Who is Ottawa solar power?

Since 1996, Ottawa Solar Power has been a leader in renewable energy for the National Capital Region, with over 1,000 installations spanning residential homes, businesses, and off-grid projects. As Eastern Ontario and Western Quebec's most experienced solar provider, we deliver reliable, tailored, and sustainable energy solutions for every need.

How much energy does a 5kwh solar panel produce in Ottawa?

The average 5kwh solar panel installation in Ottawa can produce over 5000kWh per year, and the average household consumes about 8000 kWh of electricity per year. This results in an annual savings of close to \$1000. For best results, a souther-facing surface without any shade is the best place to install solar panels in Ottawa houses.

Where to install solar panels in Ottawa houses?

This results in an annual savings of close to \$1000. For best results, a souther-facing surface without any shade is the best place to install solar panels in Ottawa houses. For such a large investment you will want to choose a reputable master electrician to install your home's solar panels.

Can solar panels save you money in Ottawa?

The savings you can achieve with solar panels in Ottawa vary based on your solar system's size and the sunlight your home receives. With Ottawa's average of 4.6 hours of sunlight per day, many residents notice a significant reduction in their energy bills.
