

EQACC SOLAR

Ottawa professional solar container lithium battery bms solution

Overview

Maximum safety utilizing the safe type of LFP battery (LiFePO₄) combined with an intelligent 3-level battery management system (BMS); Module built-in fire suppression measures, intelligent container level fire suppression system, hierarchical linkage, multi-layer protection; IP54 protection cabinet, safe and reliable operation in harsh environments. What are Lithium Balance BMS solutions?

LITHIUM BALANCE BMS solutions include both customized and off-the-shelf battery management systems for an extensive range of lithium battery setups. Find out more about the features and technical details of our off-the-shelf solutions, including datasheets and product presentations about each, by clicking the boxes below.

What are smart BMS solutions?

Whether for electric vehicles, energy storage systems, or portable devices, our smart BMS solutions ensure safety, performance, and efficiency.

What is voltaplex BMS?

Industrial Energy Storage: Voltaplex's BMS maintains safety and longevity in backup systems and off-grid power units by monitoring high-capacity lithium-ion battery management systems with scalable, remote diagnostics.

Aerospace and Defense: Our BMS design provides rugged, high-reliability power for drones, avionics, and tactical gear.

What is a battery management system (BMS)?

BMS collects, processes and stores the important information during the operation of the battery module in real time, and exchanges the information with the external equipment to give real-time alarm and protection during the operation of the battery module. BMS generally adopts multi-level distributed architecture design.

Ottawa professional solar container lithium battery bms solution

Shop , SHANGHAI ELECNova ENERGY STORAGE CO., LTD.

Elecnova's innovative 400V all - in - one container solution integrates PCS, EMS, BMS, cooling system, fire suppression system, and AC combiner cabinet Learn More->
