Overview

What is a mobile solar light tower?

The mobile solar light tower is a portable lighting system integrating solar panels, LED lighting, intelligent control, 4G monitoring system, communication base station, and a hybrid battery storage of solar and grid electricity, suitable for various temporary or long-term lighting needs.

How many floodlights does a solar lighting tower have?

Our Solar Lighting Tower comes in several options, including 4 x 50W floodlights and 4 x 100W floodlights. Operating hours can be controlled by a timer or full dusk-to-dawn operation. The system also comes with automated or manual power options. Finance your solar lighting solutions with Balboa Capital!.

How many square meters can a solar light tower illuminate?

Small Model solar powered light tower, height 6 meters (19 feet), can illuminate 750 square meters, equivalent to lighting up 1.5 standard basketball courts.

How many lumens does a Solight light tower have?

Our standard model puts out over 36,000 lumens and can be upgraded with even more powerful lights to give off double that and more. Solight light towers are built to work just as hard as you do. Contact us today and see why everyone from college event planners to mining and construction organizations are switching to Solight solar light towers.
