# **Peak regulation subsidy for energy storage power station in Rotterdam the Netherlands**

## Overview

---

Should electricity storage be regulated in the Netherlands?

However, the Dutch regulatory authority, the Netherlands Authority for Consumers and Markets (ACM), can grant exemptions where electricity storage is necessary for grid operators to perform their statutory duties but where market participants are not sufficiently investing in storage capacity.

How much money does the Netherlands spend on battery energy storage?

Netherlands' climate minister has allocated €100 million in subsidies to the deployment of battery energy storage system (BESS) technology.

Is there a roadmap for energy storage in the Netherlands?

In the Netherlands, there has also historically not been a roadmap or detailed industrial strategy with supportive legislation, policy, taxation reliefs, or investment incentives for the energy storage market.

Are grid managers allowed to buy energy in the Netherlands?

Grid managers are not allowed to buy energy on the market themselves in the Netherlands. Examples of regional grid managers are Liander and Stendin. entrepreneurs who want to become active across borders. Prohibits the placing on the market of certain batteries manufactured with mercury or cadmium. Encourages the recycling of (parts of) batteries.
