

EQACC SOLAR

Portugal 5g solar container communication station battery solar container energy storage system construction ESS system

LiFePo₄ Battery

-20°C to 55°C

Modular Design

10
Year Warranty

EXTENDED WARRANTY

Overview

What is a 5mw/20mwh Bess project?

A 5MW/20MWh BESS project Powin and Hitachi deployed for Galp in Portugal. Image: Powin / Hitachi / Galp. Galp has kicked off construction on five new battery energy storage system (BESS) projects in Spain and Portugal, marking a major step in its clean energy strategy.

What is a 5mw/20mwh Solar System?

This 5MW/20MWh system marks Galp's first step towards integrating storage into its solar portfolio, allowing for optimized energy use. Alcoutim represents Powin's first European project, highlighting the region's potential for energy storage growth. A utility-scale battery energy storage system based at a Galp solar plant in Alcoutim, Portugal.

Why is Portugal launching a solar energy storage project?

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of €99.75 million through a call for tenders to install energy storage projects totaling 500 MW.

What is Portugal's Energy Strategy?

The strategy includes a target of 20.4 GW of operational PV systems by 2030, comprising 14.9 GW of large-capacity plants and 5.5 GW of decentralized generation. Additionally, Portugal has launched its first tender for biomethane and green hydrogen as part of this comprehensive energy strategy.
