Power sales companies invest in energy storage projects

Overview

Who is Highview Power?

Highview Power is a leading provider of long-duration energy storage (LDES) technology. The company is actively developing large-scale energy storage facilities, such as the Hunterston project in the UK. Its exclusive focus on Liquid Air Energy Storage (LAES) addresses the requirement for long-duration storage without relying on batteries.

What drives energy storage project development?

Globally, energy storage project development is increasingly driven by the utility-scale segment, with mandates and targeted auctions driving gigawatt-hour projects in markets like China, Saudi Arabia, South Africa, Australia and Chile.

Does Tesla have a grid-side energy storage project in China?

US electric car maker Tesla signed an agreement on Friday for its first grid-side energy storage project in the Chinese mainland, according to a statement the company sent to the Global Times on Friday.

Are energy storage systems in demand?

Energy storage systems are increasingly in demand to increase the effectiveness of solar power arrays, with the Energy Information Administration estimating in February that new utility-scale electric-generating capacity on the U.S. power grid will hit a record in 2025 after a 30% increase over the prior year.
