

**EQACC SOLAR**

# **Power storage battery replacement**

## Overview

---

Does Tesla have a battery energy storage system in China?

Tesla's battery energy storage systems (BESS) in China are expected to consist of LFP lithium-ion battery cells from both CATL and BYD. According to LatePost (via CnEVPost), BYD 's FinDreams battery unit has secured a contract for more than 20% of Tesla 's anticipated BESS manufacturing capacity in China.

Which EV batteries will be made in China?

According to LatePost (via CnEVPost), BYD 's FinDreams battery unit has secured a contract for more than 20% of Tesla 's anticipated BESS manufacturing capacity in China. The remaining 80% of batteries will likely come from CATL. When it comes to EV lithium-ion batteries, CATL and BYD are currently the two largest manufacturers globally.

Where do EV batteries come from?

The remaining 80% of batteries will likely come from CATL. When it comes to EV lithium-ion batteries, CATL and BYD are currently the two largest manufacturers globally. CATL supplies various companies, while BYD produces batteries mostly for its own needs but also for clients through its FinDreams business unit.

## Power storage battery replacement
