How does a solar inverter work in Pretoria?

Solar panels in Pretoria generate DC power which is stored in a solar battery bank. The off-grid solar inverter converts the DC power stored in the battery bank to AC current to use in your home in Pretoria. A off-grid solar inverter can also be connected to a generator as a backup power if the solar panels doesn't produce enough power in Pretoria.

What is a GC solar container power station?

Containers are custom built and may vary. GC Solar Container Power Station gives the flexibilities for industrial, large enterprises and corporate companies to deploy the system nearly in any nodes in the grid, supporting the services such as emergency power, new energy stabilizer, energy shifting, load shaving, grid stabilizer.

Where can container power solutions be implemented?

Our container power solution can be implemented in varies ways, including, but not limited to power backup, off-grid solutions, emergency power, energy stabilization and in varies industries like hospitals, factories, corporate buildings, power stations and data centers.
