

Price of solar power generation and energy storage in El Salvador

Overview

How much does electricity cost in El Salvador?

El Salvador, June 2023: The price of electricity for households is USD 0.240 per kWh. The electricity price for businesses is USD 0.196 per kWh. This includes all components of the electricity bill such as the cost of power, distribution and taxes.

How can El Salvador boost low-carbon electricity generation?

To boost low-carbon electricity generation further, El Salvador can significantly benefit from expanding its solar energy infrastructure, which is already playing a vital role in the electrical landscape.

Why should El Salvador invest in solar energy?

By capitalizing on its geographical advantages for solar energy, El Salvador can increase its clean electricity supply, aligning with environmental goals and global energy trends.

Is electricity growing in El Salvador?

Despite these notable achievements in clean electricity, El Salvador has seen a decline in overall electricity consumption to 1125 kWh per person in 2024, compared to its previous record of 1240 kWh per person in 2021.
