Product Quality of 40-foot Folding Container

Overview

What is a seafold 40 HC container?

SeaFold 40' has the same features as a conventional 40' HC container. Requires no special handling or maintenance equipment. Safe and easy folding and erecting procedure. Compatible with all standard lift equipment found in most ports and terminals. Serviceable by existing maintenance organizations and depots throughout the world.

What makes the seafold 40 ft container unique?

The unique design complies fully with ISO standards, affirming its reliability and readiness to withstand the demanding conditions of maritime logistics. The assembly process of the SeaFold 40' container is streamlined and designed to facilitate ease of use while adhering to the highest industry standards of safety and efficiency.

Will the seafold 40 reduce the cost of repositioning containers?

With over 20 percent of all ISO containers returning to their port of origin empty, the SeaFold 40' has the potential to cut the cost of repositioning containers by 56 percent, storage space by 80 percent, and carbon emissions by up to 70 percent.

What is a seafold 40?

In the maritime logistics arena, the SeaFold 40' sets a new standard with its revolutionary 5:1 design. This configuration enables the container to condense to a fifth of its original size, drastically improving storage and transportation efficiency. Despite its compact nature, it does not compromise on quality or durability.
