Pumped Storage Power Station Generator in Mumbai India

Overview

Where will pumped storage hydro projects be located in India?

The projects will be located in the Western Ghats mountain range in India. The natural topography of the region offers significant potential for pumped storage hydro projects. Tata Power has a foothold in the region through three hydropower stations: Khopoli, Bhivpuri, and the Bhira station, which includes a 150MW pumped storage hydro project.

What is pumped storage hydroelectric project in Maharashtra?

Mumbai, The Maharashtra government on Tuesday signed four Memoranda of Understanding (MoUs) with private companies to develop pumped storage hydroelectric projects (PSPs) with Rs 31,955 crore investment with the aim of generating 6,450 MW power and 15,000 jobs.

How many pumped-storage hydropower projects in Maharashtra?

Earlier in September 2024, Maharashtra signed memorandums of understanding with the central government-owned power utility NHPC and THCD, an affiliate of NTPC, to develop 10 pumped-storage hydropower projects in the state with a total capacity of 14.1 GW.

What was the first pumped storage project in India?

ANDRITZ's first pumped storage project in India was Kadamparai (4 x 100 MW). Projects like Panchet (1 x 40 MW) and the first private pumped storage plant Bhira (1 x 150 MW) represent the commitment and decades of experience of ANDRITZ in India.
