

EQACC SOLAR

Qatar factory solar panels

Overview

Why should you choose a solar panel supplier in Qatar?

Qatar, a nation known for its visionary approach towards sustainability and energy diversification, has been steadily advancing in the field of renewable energy, particularly in solar energy. The solar panel suppliers in Qatar are at the forefront of this transformation, contributing significantly to the country's solar energy landscape.

Who makes solar energy in Qatar?

The state-owned group, Qatar Solar Energy, is a leading manufacturer of solar power components and last year opened the largest integrated production facility for solar energy systems in the Middle East and North Africa region. Even more recently, Qatar's Solar Technologies, took a 49% stake in German-based SolarWorld.

How many solar panels does Qatar have?

Spanning 27□—equivalent to 3,790 football fields—the massive site will be fitted with 2.74 million solar panels. Upon completion in 2030, the plant will generate enough electricity to power approximately 750,000 households, even considering Qatar's high per-capita energy use.

How will Qatar's Solar energy industry evolve in the near future?

The various milestones in the technological innovations associated with Qatar's solar energy industry are likely to accelerate the market in the near future. The renewables-based power generation in the country was around 43MW, as of 2020, which is almost negligible as compared to the fossil fuels penetration (13099MW).
