

**EQACC SOLAR**

# **Quotation for a 20-foot mobile energy storage container project for rural areas**

## Overview

---

What is a 20ft container energy storage system?

It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The 20FT Container 250kW 860kWh Battery Energy Storage System is a highly integrated and powerful solution for efficient energy storage and management.

What is a populated 20ft NWI liquid-cooling energy storage container?

\*Specification of Battery Rack The populated 20ft NWI liquid-cooling energy storage container is an integrated high energy density system, which consists of battery rack system (280Ah LFP cell), BMS (battery management system), FSS (fire suppression system), thermal management system and auxiliary distribution system.

What is a 20ft container?

A 20ft container is a critical enclosure for the energy storage system. It has a metal shell and grounding system to protect the system and users' safety. The battery cluster is composed of LiFePO<sub>4</sub> batteries arranged in a 1P20S configuration and a BMU. The 1MWh system includes 5 clusters, connected to a 500kVA PCS for output at 340-440VAC.

What is a 20ft container 250kW 860kwh battery energy storage system?

Equipped with automatic fire detection and alarm systems, the 20FT Container 250kW 860kWh Battery Energy Storage System is the ultimate choice for secure, scalable, and efficient energy storage applications. Email us with any questions or inquiries or use our contact data.
