Rabat energy storage electric vehicle charging station

Overview

Does Morocco have EV charging stations?

As the political and administrative capital of Morocco, Rabat offers a wide range of EV charging stations, including Tesla Superchargers. The city has made significant investments in EV infrastructure to promote sustainability and green energy.

How many charging stations will Morocco have in 2023?

In 2023, the intersectoral professional association for electric mobility (APIME) has announced the deployment planning of 2500 new charging stations for electric vehicles in Morocco by 2026.

Are Tesla superchargers available in Morocco?

The availability of Tesla Superchargers and other EV charging stations in Morocco across major cities like Casablanca, Marrakech, Rabat, Tangier, Agadir, and Fes makes it easier for electric vehicle owners to explore the country without worrying about battery life.

How many e-mobility chargers are there in Morocco?

AFRIMOBILITY, a new CPO and player in the e-mobility sector in Morocco, has deployed on Moroccan highways and cities a charging network branded as FASTVOLT, composed of 22 fast chargers with a rated power of 50 kW for each, as well as 28 AC chargers. By the end of 2024, this CPO is planning to deploy about 220 chargers (80 DC, 140 AC).
