Replacement price of inverter

Overview

How much does a solar inverter cost?

Here's an estimated replacement cost for a solar inverter: String inverters are the more affordable option for PV system owners to consider. This type of inverter operates by gathering DC from a sequence of solar panels, known as a 'string'. The solar inverter replacement cost generally ranges from R10,000 to R30,000.

Can a solar inverter be replaced?

If your solar inverter is outside the 5-year warranty window, your local solar repair specialist should be able to provide a quote for a replacement solar inverter. You can also call Solarfix today on 0497 524 407, and our friendly team can assist you with the cost of a solar inverter replacement. Do Solar Inverters need servicing?

Yes, they do.

How often should a solar inverter be replaced?

Regular maintenance can help extend an inverter's lifespan, but it will likely need to be replaced at least once during the overall lifecycle of a solar panel system. Get guidance on solar inverter replacement, including when it's needed, estimated costs, and choosing a reliable manufacturer for optimum efficiency.

How much does a micro inverter cost in South Africa?

Micro inverters, on the other hand, present a different financial and technical picture. With costs ranging from R400 to R2,000 per unit, the total solar inverter replacement cost could exceed R50,500 when installation aspects such as wiring are included, based on an average South Africa system with about 15 panels.
