# **Riga Airport uses 60kW photovoltaic container**

## Overview

---

Is RIX Riga Airport sustainable?

RIX Riga Airport has taken significant steps to become a greener, more energy-efficient, and sustainable transport hub in the Baltics. With a series of sustainability initiatives now in place, the airport continues its path towards climate neutrality, creating an environment that benefits both people and nature.

What is Riga airport's sustainability strategy?

A cornerstone of Riga Airport's sustainability strategy is the updated Net Zero roadmap. The airport has committed to achieving climate neutrality by 2035, substantially reducing greenhouse gas emissions and investing in green technologies.

Will RIX Riga Airport achieve net zero by 2035?

The goal is to achieve Net Zero by 2035. RIX Riga Airport has taken significant steps to become a greener, more energy-efficient, and sustainable transport hub in the Baltics.

Is Riga Airport achieving climate neutrality by 2035?

Riga Airport is implementing a range of sustainability measures as part of its goal to reach climate neutrality by 2035. The airport has achieved Level 3 in the Airport Carbon Accreditation programme, reflecting progress in reducing direct CO<sub>2</sub> emissions and engaging stakeholders in climate initiatives.
