Riyadh solar container lithium battery large cylinder

Overview

Is a 2gwh battery energy storage system being built in Saudi Arabia?

Battery storage containers at the Bisha project. Image: PowerChina. A 2GWh battery energy storage system (BESS) project has gone into operation in Saudi Arabia, according to the engineering, procurement and construction (EPC) firm which delivered it.

Why is Saudi Arabia launching a battery storage project?

Saudi Arabia aims to generate 50% of its electricity from renewables by 2030. However, renewable energy sources like solar and wind can be unpredictable. The 12.5 GWh battery storage project will solve this issue by storing energy and ensuring a steady power supply. This is very important in Saudi Arabia.

Is South Korea launching a battery energy storage system in Saudi Arabia?

South Korea's Ministry of Trade, Industry and Energy will host a competitive solicitation for battery storage capacity in two locations. A 2GWh battery energy storage system (BESS) project has gone into operation in Saudi Arabia, according to the EPC firm which delivered it.

How a 12.5 GWh battery storage project will help Saudi Arabia?

The 12.5 GWh battery storage project will solve this issue by storing energy and ensuring a steady power supply. This is very important in Saudi Arabia. The nation's energy demand is high because of extreme temperatures and heavy electricity use.
