**Romanian company that
collects new energy battery
cabinets**

Overview

What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Floreşti, Cluj county, which is expected to be operational by the end of 2025.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.

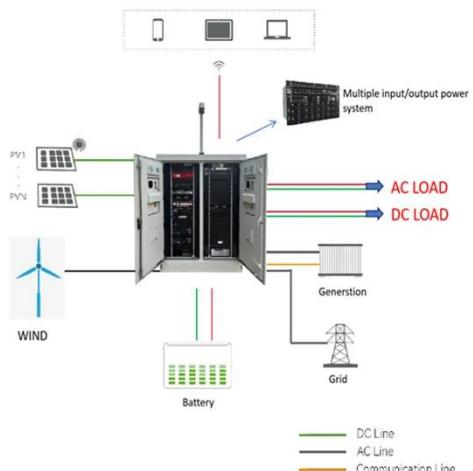

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

Will Trina supply Elementa 2 battery cabinets to the Topliţa project?

Trina Storage announced it will supply Elementa 2 battery cabinets to the Topliţa project as part of the overall system architecture, with the project is being delivered under a strategic contract between Trina Storage and Allview, as part of the broader collaboration on the Renovatio initiative.
