

EQACC SOLAR

San Diego containerized energy storage vehicle

Overview

What is the Seguro energy storage project?

By delivering stored power when it is most needed, the Seguro storage project provides flexibility that will be critical to helping the San Diego region meet its decarbonization goals and California achieve 100% carbon-free energy by 2045. AES' Seguro energy storage project is a planned facility in California.

How much battery storage does SDG&E have?

SDG&E's utility-owned battery storage portfolio is expected to reach nearly 480 MW of power capacity and over 1.9 GWh of energy storage by year-end, including the Westside Canal expansion and two additional projects in San Diego County currently being constructed.

What is AES' Seguro storage project?

AES' Seguro storage project is a proposed battery energy storage project near Escondido and San Marcos, California, that will provide a critical, cost-effective source of reliable power to support the region's electric grid.

Did San Diego County conduct a public scoping meeting for Seguro energy storage?

San Diego County conducted a public scoping meeting for the Seguro Energy Storage project. [Read more here](#). It's important to remember that fires and thermal runaway incidents at battery storage facilities are rare occurrences.
