

EQACC SOLAR

School uses Amsterdam folding container low-pressure type

LFP12V100

Overview

Why should you choose a folding container?

Contact us! Folding containers can give up to an 80% saving in volume and are available in standard footprints and heights. Lid and closure options are also available.

What is Amsterdam's largest student housing complex?

Launched in 2005 as a trial, a city built from repurposed shipping containers has grown into Keetwonen, Amsterdam's largest student housing complex. Today, it's home to approximately 2,500 students.

When are open top containers used?

Open top containers are used when cargo exceeds the height restrictions of standard containers or requires top-loading. This is suitable for cargo such as machinery, large equipment, and bulk goods that cannot be easily loaded through standard container doors.

Why do you need a lid for a foldable container?

Our foldable boxes come with a range of customizable features, offering flexibility for various industries and optimizing your logistics operations. Lids for foldable containers provide essential protection for contents, keeping items safe from dust, moisture, and contaminants during storage and transportation.
