

EQACC SOLAR

Seychelles solar container communication station wind power solar power generation

Overview

What does the Seychelles government do?

The Seychelles Government is committed to providing adequate, reliable and affordable energy to meet future energy consumption needs and to underpin strong economic growth through consumable energy initiatives. The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar.

How is the Seychelles energy project financed?

The project is a major step toward meeting the Seychelles' target of producing 15 percent of its energy from renewable sources by 2030. It was financed through a grant of US\$28 million from the Abu Dhabi Fund for Development, a government entity that enhances living standards in developing nations.

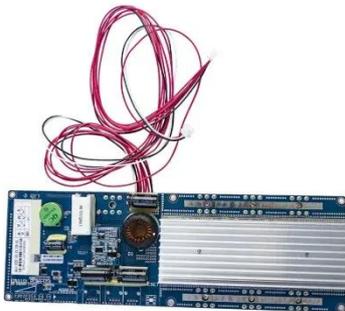

How many wind turbines are there in the Seychelles?

Masdar developed and delivered the first large-scale renewable energy project in the Seychelles. Owned and operated by the Seychelles government, the project consists of eight wind turbines across two small islands off the coast of Mahe - five turbines on Romainville Island and three at Ile du Port.

What is the Seychelles energy plan?

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel generators with domestic and international public and private financing.

Seychelles solar container communication station wind power solar

Seychelles' 'first utility-scale' floating solar project secures

"This investment underscores FEI's commitment to supporting innovative clean energy solutions across Africa's island nations. As the first IPP utility-scale project in ...

Construction of solar power generation system for Seychelles

Power supply for photovoltaic power generation system of Sino-European communication base station The communication base station installs solar panels outdoors, and adds MPPT solar

ENERGY STORAGE SYSTEM

Product Model

HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions

1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity

215KWH/115KWH

Battery Cooling Method

Air Cooled/Liquid Cooled
