

**EQACC SOLAR**

**Shopping mall uses foldable containers for fast charging**

## Overview

---

### Why do shopping malls need fast chargers?

Fast chargers can deliver an 80% charge in as little as 20 minutes, providing a significant advantage in high-traffic areas like shopping malls where customers may not spend extended periods. Advanced load management systems enable shopping malls to optimize energy use by balancing load demand, thereby reducing downtime and maintenance costs.

### Why do shopping malls need EV charging stations?

Shopping malls, being hubs of consumer activity, are strategically positioned to serve the growing number of EV users. The availability of EV charging stations is not only a value-added service for visitors but also a critical determinant of a mall's competitiveness in attracting eco-conscious shoppers.

### Why is DC fast charging important?

The integration of DC fast charging stations has become imperative in commercial settings. Fast chargers can deliver an 80% charge in as little as 20 minutes, providing a significant advantage in high-traffic areas like shopping malls where customers may not spend extended periods.
