

EQACC SOLAR

Singapore Energy Storage Cabinet Manufacturing Company

Overview

What is Sembcorp energy storage system?

The Sembcorp Energy Storage System was launched in 2023. Commissioned in six months, the 285MWh system was Southeast Asia's largest ESS and the fastest in the world of its size to be deployed.

What is an energy storage solution?

An energy storage solution is a complete system and service designed to help users store, manage, and release electricity. Its core purpose is to address the imbalance of energy supply and demand across time and space, improve energy efficiency, stabilize power systems, and enable large-scale use of renewable energy. 2.

What is Singapore's solar energy system (ESS)?

Built across two sites on Jurong Island, our ESS enhances Singapore's grid resilience by mitigating the impact of solar intermittency as the republic progresses towards achieving its 2030 solar target of at least 2GWp and energy storage systems deployment of 200MWh beyond 2025.

What are the long-term energy storage technologies?

With the technical support of SynVista Singapore Research Institute, we have introduced long-term energy storage technologies such as electrochemical energy storage, hydrogen energy, and thermal energy storage (TES) to provide strong support for the development of renewable energy worldwide.
